

TITLE

SGG Extra View 47

SUBTITLE

Solar control and low emissivity glass

DESCRIPTION

SGG Extra View 47 is high light reflectance solar control glass, coated on extra clear substrate, with grey attractive appearance.

Thanks to its good solar control coating performance, it can keep interiors more comfortable by preventing excessive solar in summer, environmentally- friendly cooling solution with less need for costly air- conditioning.

RANGE

Product	Thickness	Dimension
Extra View 47	5mm	3300*2440/2134
	6/8/10mm	3660mm*2540mm/2440mm 3300mm*2440mm/2134mm

PERFORMANCE

Product	Structure	Face	Luminous factor (%)		SC	U value (W/m ² -K)	
			TL	RL _e		Air	Argon
Extra View 47	6-12-6	2	47	29	0.42	1.6	1.3

PRODUCT APPLICATION

Seeking unworldly architectural taste, SGG Extra View 47 can be installed in many glazing applications.

Offices and commercial buildings

Industrial buildings

Hotels and restaurants

ADVANTAGE

Have a grey appearance with high light reflectance, meeting modern architectural design requirements.

Spectrally selective glasses combining proper light transmission levels with a low solar factor, thus reducing air conditioning costs.

Provide good thermal insulation properties when assembled into double- glazed units to reflect heating back to interior.
